

UPDATE

[View this email in your browser](#)

**Tuesday, January 22, 2019**

**This weekend, Saturday, January 26th**, we will perform the first of two extended pours as we lay our foundation down.

During this time, we will require the **closure of Columbia and Terry with a sidewalk closure on Columbia** for the total duration.

Pumping on these days will begin at 1:00 am and proceed until 1:00 pm to minimize traffic disruptions with finishing work going until 6:00 pm.

**Other activities include:**

- Rebar deliveries will continue early mornings before 7:00 am with unloading on Terry Avenue.
- Waterproofing continues below foundations and drain board at foundation walls.
- Detail excavating is still ongoing – the soils being excavated are expected to be used for backfill once the footings are set.
- Underground plumbing is being installed to provide foundation drainage.
- Temporary flagging activities will continue throughout the month on Terry Avenue.

- Foundation mat pours are now scheduled for the following dates:

**January 26th** – South Side.

**February 9th** – North Side.

During these dates, extended work hours will be in place to ensure that work is finished on time. This will require the closure of Columbia and Terry with a sidewalk closure on Columbia as well. Pumping on these days will begin at 1:00 am and proceed until 1:00 pm so minimize traffic disruptions with finishing work going until 5:00 pm.
