

UPDATE

[View this email in your browser](#)**Friday, August 17, 2018**

Upcoming construction activities:

- Periodic day hauling of soils from the site will continue on the approved haul route on Mondays through Fridays during the hours of 7:00am to 5:00pm. Flaggers are currently staged at Cherry and Terry to assist with traffic flow.
- Continued removal of demolition debris will also occur during the same timeframe.
- Drill rigs and other equipment will be arriving at the project site on Monday, August 20, with the intent to start drilling shoring piles.
- Steel deliveries for the shoring system are also starting on Monday, August 20. Oversized steel deliveries will be arriving at the site as needed before 6:00am. Off-loading of the steel will be starting daily at 7:00am. Drilling will begin at 8:00am daily. A mobile crane will be staged on the project site for this activity.
- Parking along the haul route on Marion Street, Terry Avenue, and Cherry Street will be reduced to allow for the trucks to safely navigate this route. See attached map for clarity of these areas. This will begin on Sunday night at 7pm, August 19.
- Pilot cars and flaggers will also be assisting the oversized deliveries on a daily basis.
- Concrete trucks will start arriving daily to support the shoring activities.
- Monday night, August 20, a camera truck will be temporarily staged at intersections on Columbia and Terry and Cherry and Terry, as well as at manholes on Columbia and Cherry next to the jobsite. The camera truck is being used to verify the conditions and exact locations of the water and sewer lines next to the site. This will be a one night activity with an idling truck between the hours of 7pm to 6am.
- Night hauling of soils will not start until closer to September on a regular basis.
- A larger shutdown of Columbia and Terry for bringing in a conveyor system and mobile crane will be coordinated on a Saturday in early October.
