

UPDATE

[View this email in your browser](#)

Friday, March 22, 2019

- Rebar deliveries will continue weekly to be delivered at approx. 7:00 am along Terry Ave. This may require flagging during the unloading of materials.
- Loaders and Excavators will be demobilized on-site Saturday March 23, 2019, upon completion of our Cap Break Layer on that same day. Flaggers will continue to coordinate traffic while vehicles and equipment are loaded/unloaded from the excavation.
- The final foundation slab on grade pour will occur on Monday, March 25, 2019. This large pour date was selected to minimize overall disruption to the neighborhood as the Frye Art Museum will be closed on this day. In order to successfully complete this large pour we will be setting up the concrete pump truck on Terry Ave starting at 6:00 am and begin placing concrete at 7:00 am. Concrete trucks will be delivering to site for the majority of the day. This will require flagging and one way traffic on Terry Ave.

- Elevated Decks for our P5 Parking Level begins on Monday March 25, 2019. It is anticipated the project will be at grade by June of 2019.
